PROFILE

Dynamic IT Support with over 7 years of experience in managing and enhancing technology operations. Proven expertise in network installation, configuration and troubleshooting, ensuring optimal performance and security within organizational systems. Adept at conducting preventive maintenance and overseeing installations, while fostering effective communication with network providers. Committed to driving efficiency and supporting business operations through innovative technical solutions and strong problem-solving skills.

WORK EXPERIENCE

Next Pillar Technology Solution — **Dubai, UAE**
I.T Support Specialist — *October 2025 - Present*

- Provide comprehensive site-to-site IT support and troubleshooting for a diverse portfolio of corporate clients, including Kabri, FEC, NJM, ACS, Transparency Real Estate, and Al Rayhan.
- Deploy pre-configured computers and workstations, ensuring hardware, operating systems, and network printers are fully functional upon installation.
- Administer Microsoft 365 cloud systems, including creating user email accounts, configuring OneDrive, and setting up secure shared folders.
- Design and maintain standardized service report formats to ensure clear documentation of technical resolutions and client satisfaction

Japan Aviation Electronics Philippines Inc. — **Gateway Gen. Trias, Cavite**
I.T Assistant Supervisor — *September 2018 - July 2025*

- Installs network lines and equipment, scopes, network cabling, hub & switch configuration, router and other related equipment installation and servicing.
- In charge of the installation of desktop PC's, inclusive of any operating system and other job-related software.
- Troubleshoots software and system related errors and recommends system improvements.
- Assess Leased lines provided by different Network providers (GLOBE & PLDT) and coordinate any problems and help with the restoration.
- Coordinates with JAE HQ IT personnel regarding system problems.
- Provides orientation to computer related items such as Desktop PC Operation, Operating System software, Email services, Printing, Scanning, Anti-virus and other items. We shall provide support for all members of JAE PH regarding computer operations.
- Executes preventive maintenance on the whole computer system inclusive of the hardware and software. May require extended and weekend work in response to the needs of the systems being supported.
- Performs hardware and software inventories. Install, maintain, and even modify application programs. Identify and analyze user requirements and recommend appropriate modifications.
- Maintain confidentiality regarding the information being processed, stored or accessed by the network.
- Investigate user problems and needs, identify their source, and determine possible solutions.
- In charge of the servers, setup configuration and other tasks.

Rushtek Enterprise — **Dasmariñas, Cavite**
I.T Technical Support/Installer — *April 2017 - October 2018*

- Install CCTV and other products at clients' premises
- Set up workstations with computers and necessary peripheral devices (routers, printers etc.)
- Test and configure all the equipment installed to make sure that it is working
- Perform troubleshooting to diagnose and resolve problems (repair or replace parts, debugging etc.)
- Provides technical support to clients
- Requests materials needed for each project
- Submit daily reports of project accomplishments
- Creating Purchase Order for Rushtek Suppliers
- Onsite visit and planning to the clients

Supervalue Inc. Trece (SVI) — **Trece Martires, Cavite**
RDU Clerk — *August 2016 - February 2017*

- Inspecting deliveries to ensure they match order and invoice criteria.
- Receiving and signing for deliveries.
- Unloading deliveries from trucks.
- Maintaining records of orders, delivery details, etc.

EDUCATION

Cavite State University - Main Campus — **Indang, Cavite**
BS in Information Technology — Graduation Date: April 2016
